Re: MB Docket No. 10-56

Dear Chairman Genachowski and Commissioners:

Thank you for reading and considering these comments as part of the FCC review of the proposed joint venture between NBC Universal and Comcast. My interest in this matter stems from my commitment to the economic prosperity of Redwood City and San Mateo County, California. On behalf of over 1,100 members of our Chamber of Commerce, I would like to express our support for Comcast because of its positive impact on our city and its presence as a role model to businesses in the area.

The Chamber provides resources and services that help businesses in our community to grow. We represent these businesses in community affairs with a special focus on information, communication and education. Comcast has been an active member in being particularly helpful in these efforts. Under our Progress Seminar, Comcast has helped bring together over 300 business, government and community leaders to address substantial regional issues. Our community's key influential leaders unmistakably recognize Comcast for its efforts, as do our residents and businesses.

Comcast is a model company that has invested significantly in Redwood City and throughout San Mateo County and works hard to provide community members and businesses alike with access to the best in entertainment and high-speed broadband Internet service. Few companies can match Comcast's civic commitments to our City through events like Comcast Cares Day and its Comcast Leaders & Achievers Scholarship Program which reaches out and provides high school seniors with scholarships for college.

The Redwood City-San Mateo County Chamber of Commerce supports Comcast's venture with NBC Universal because it will have a positive social and business impact on our community. Thank you again for your consideration.

Sincerely yours,
